

*Historical
data for
scheduling*

SCHEDULING, FORECASTING & RECONCILIATION STANDARDS

Standard

We provide historical and monthly usage files via Customer Portal, as required daily, weekly and monthly for the retail energy provider and wholesale supplier to perform load forecasting, load and supply scheduling and reconciliation, including interfacing with the transmission and distribution service provider and ERCOT.

Enhanced

We have an ongoing relationship with New Energy Associates to incorporate its Load Profiling and Forecasting, Energy Scheduling and Settlement from its Retail Office suite of software. This powerful tool would provide for:

- Load profiling
- Load forecasting
- Energy scheduling
- Settlement reconciliation
